

 Ente Nazionale per l'Aviazione Civile	TRI - SFI A - H - PL		☐ TRI	☐ SFI	☐ SP ☐ MP
	ISSUE - EXTENSION REVALIDATION - RENEWAL ASSESSMENT OF COMPETENCE		☐ ISSUE	☐ EXTN	☐ A ☐ H ☐ PL
	APPLICATION & REPORT FORM Ref: Part FCL.915 - FCL.935 - FCL.940 TRI SFI Reg. 1178/2011		☐ REV	☐ RNW	☐ OSD

1 APPLICANT DETAILS and ASSESSMENT OF COMPETENCE SPECIFICATIONS					
Applicant last name(s)		Aircraft	☐ SP	☐ MP	
Applicant first name(s)		Crew certification	☐ TRI	☐ SFI	
Identity card number		Application for	☐ ISSUE	☐ EXTENSION	
Date of birth			☐ REVALIDATION	☐ RENEWAL	
Address		Credit for similar type	☐ OSD	Reference	
Licence type				Issue	
Licence number				Date	
State of issue		Assessment details and applicant prerequisites	☐ ASSESSMENT OF COMPETENCE		
Applicant signature			☐ REFRESH TRAINING for TRI		
			☐ TRAINING RCRD	☐ A ☐ H ☐ PL	☐ 3 HRS TR/ RT as TRI or 1 HR AIR EXR as TRI
					☐ 50 HRS as TRI in EACH TYPE
Aware of the consequences of providing incomplete, inaccurate or false information, the applicant declares that above data are correct and that he/she is fit and ready for test.					

2 APPLICANT LICENSE DETAILS				
Instructor certificates	TRI expiration date		SFI expiration date	
Type ratings	Type		Expiration date	
	Type		Expiration date	

3 APPLICANT PRE COURSE FLIGHT EXPERIENCE FOR INITIAL ISSUE				
Flight experience details	FLIGHT TIME	MULTI PILOT TIME	FLT TIME ON TYPE	ROUTE SECTORS
	TOTAL	TOTAL	TOTAL	PREVIOUS 12 MONTHS

4 APPLICANT FLIGHT EXPERIENCE FOR REVALIDATION / RENEWAL				
Flight experience details	FLIGHT TIME as TRI / SFI			
	TOTAL		PREVIOUS 12 MONTHS	

Applicant name _____

5 APPLICANT PREREQUISITES DETAILS FOR ISSUE / EXTENSION			
Assessment details and applicant prerequisites	Aircraft category	Certification sought	Prerequisites
	AIRPLANE	☐ TRI (A) MPA	☐ MULTI PILOT AEROPLANES FLT TIME > 1.500 HRS ☐ SECTORS WITHIN PRECEDING 12 MONTHS > 30 (MAX 15 ON FFS)
		☐ TRI (A) SPA	☐ SECTORS WITHIN PRECEDING 12 MONTHS > 30 (MAX 25 ON FSTD) ☐ FLT TIME AS PILOT > 500 HRS (PIC FLT TIME ON TYPE > 30 HRS) <u>or</u> ☐ FI FOR ME WITH IR(A) PRIVILEGES (HOLD / HAVE HELD)
	HELICOPTER	☐ TRI (H) SP SE	☐ FLT TIME AS PILOT ON HELICOPTER > 250 HRS <u>or</u> ☐ FI (H) (HOLD)
		☐ TRI (H) SP ME	☐ FLT TIME AS COPTER PILOT > 500 HRS (100 AS PIC ON SPME H) <u>or</u> ☐ FI (H) + FLT AS PILOT ON MULTI ENGINE COPTER > 100 HRS
		☐ TRI (H) MP	☐ FLT TIME ON HELICOPTER > 1.000 HRS <u>and</u> ☐ FLT TIME IN MULTI PILOT OPS ON ANY A/C CATEGORY > 350 HRS <u>or</u> ☐ FLT TIME IN MULTI PILOT OPS ON REQUIRED TYPE > 100 HRS
POWERED-LIFT AIRCRAFT	☐ TRI (PL)	☐ FLY TIME AS PILOT IN MP AEROPLANES / PL / MPH > 1.500 HRS ☐ SECTORS WITHIN PRECEDING 12 MONTHS > 30 (MAX 15 ON FFS)	

6 TRI REFRESH TRAINING DETAILS FOR REVALIDATION / RENEWAL				
Training center	Name		HT declaration	Aware of the consequences of providing incomplete, inaccurate or false information I hereby declare that the refresh seminar / training details are correct and that the period has been carried out
	Certification			
Certification details	Place		Applicant declaration	Aware of the consequences of providing incomplete, inaccurate or false information I hereby declare the refresh seminar / training details are correct and that I attended the training as herein detailed
	Date of approval	/ /		
Training period	From	/ /	Applicant declaration	Signature
	To	/ /		

7 TRI TRAINING DETAILS				
TRI training	Training device	☐ FFS (A)	☐ FFS (H)	☐ FSTD
	Aeroplane type		Helicopter type	
Training center	Name		HT declaration	Aware of the consequences of providing incomplete, inaccurate or false information I hereby declare that the MCCI course details are correct and that the period has been carried out
	Certification			
	Place			
Training period	Date	/ /	Applicant declaration	Aware of the consequences of providing incomplete, inaccurate or false information I hereby declare the MCCI course details are correct and that I attended the training as herein detailed

	To	/ /		

8	TRI / SFI TRAINING REFERENCE	
Teaching and learning	☐ 25 HRS	Applicants holding or having held an instructor certificate shall be fully credited towards this requirement
Technical training	☐ 10 HRS	Technical training including revision of technical knowledge, the preparation of lesson plans and the development of classroom/simulator instructional skills
Flight instruction	☐ 5 HRS	Flight instruction on the appropriate aircraft or an FSTD representing that aircraft for single-pilot aircraft and 10 hours for multi-pilot aircraft or an FSTD representing that aircraft
Additional training	☐ LIFUS	Additional specific training before conducting LIFUS;
	☐ LDG TRNG	Additional specific training before conducting landing training. That training in the FSTD shall include training for emergency procedures related to the aircraft.
Credit	☐ SFI → TRI	An applicant for a TRI certificate who holds an SFI certificate for the relevant type shall be fully credited towards the requirements of this paragraph for the issue of a TRI certificate restricted to flight instruction in simulators.

9	ASSESSMENT DETAILS					
Aircraft	☐ A ☐ H					
Aeroplane details	Type		Registration			
Simulator details	FFS / FSTD		Reference			
	Aircraft represented		Location			
Sector(s)	DEPARTURE	TAKEOFF TIME	DESTINATION	LANDING TIME	FLIGHT TIME	LANDINGS

10	ASSESSMENT OF COMPETENCE DETAILS					
Terms of assessment	☐ PASS			☐ FAIL		
	Failure reason(s) AMC2 FCL.1015 (o)(2)			☐ (i)	☐ (ii)	☐ (iii)
				☐ (iv)	☐ (v)	☐ (vi)
Remarks						
Examiner details	Name		License number			
	Signature		Examiner certificate			
Location				Date		

11	EXAMINER DECLARATION - FCL.1030 (a)(2)		
<i>I have received information from the applicant and verified that he / she complies with all the qualification, training and experience requirements in this Part for the issue, revalidation or renewal of the license, rating or certificate for which the skill test, proficiency check or assessment of competence is taken.</i>			
Date		Signature	

12	EXAMINER DECLARATION - Holder of Examiner certification issued by an EASA country member other than ITALY						
<i>I hereby declare that I have reviewed and applied the relevant national procedures and requirements of the applicant's competent authority contained in the latest revision of the EASA Examiner Differences Document.</i>							
Date		EASA EDD version		Examiner name		Examiner signature	

>>>>> **STANDARDIZATION REFERENCE GUIDE - NOT TO BE REPORTED TO NAA** <<<<<

A1 APPENDIX 1 - STANDARDIZATION ARRANGEMENTS FOR EXAMINER - AMC2 FCL.1015		
(1)	Limitations	(a) An examiner should allow an applicant adequate time to prepare for a test or check, normally not more than 1 hour
		(b) An examiner should plan a test or check flight so that all required exercises can be performed while allowing sufficient time for each of the exercises and with due regard to the weather conditions, traffic situation, ATC requirements and local procedures
(2)	Purpose of a test or check	(c) Determine through practical demonstration during a test or check that an applicant has acquired or maintained the required level of knowledge and skill or proficiency
		(d) Improve training and flight instruction in ATOs or DTOs by feedback of information from examiners about items or sections of tests or checks that are most frequently failed
		(e) Assist in maintaining and, where possible, improving air safety standards by having examiners display good airmanship and flight discipline during tests or checks
(3)	Conduct of test or check	(f) An examiner will ensure that an applicant completes a test or check in accordance with Part-FCL requirements and is assessed against the required test or check standards
		(g) Each item within a test or check section should be completed and assessed separately. The test or check schedule, as briefed, should not normally be altered by an examiner. A failed item is not always a failed section, for example type rating skill test where a failure of an item in a section does not fail the entire section, only the failed item is taken again
		(h) Marginal or questionable performance of a test or check item should not influence an examiner's assessment of any subsequent items
		(i) An examiner should verify the requirements and limitations of a test or check with an applicant during the pre-flight briefing
		(j) When a test or check is completed or discontinued, an examiner should debrief the applicant and give reasons for items or sections failed. In case of a failed or discontinued skill test and proficiency check, the examiner should provide appropriate advice to assist the applicant in re-tests or re-checks
		(k) Any comment on, or disagreement with, an examiner's test or check evaluation or assessment made during a debriefing will be recorded by the examiner on the test or check report, and will be signed by the examiner and countersigned by the applicant
(4)	Examiner preparation	(l) An examiner should supervise all aspects of the test or check flight preparation, including, where necessary, obtaining or assuring an ATC 'slot' time
		(m) An examiner will plan a test or check in accordance with Part-FCL requirements. Only the manoeuvres and procedures set out in the appropriate test or check form will be undertaken. The same examiner should not reexamine a failed applicant without the agreement of the applicant
(5)	Examiner approach	(n) An examiner should encourage a friendly and relaxed atmosphere to develop both before and during a test or check flight. A negative or hostile approach should not be used. During the test or check flight, the examiner should avoid negative comments or criticisms and all assessments should be reserved for the debriefing
(6)	Assessment system	Although test or checks may specify flight test tolerances, an applicant should not be expected to achieve these at the expense of smoothness or stable flight. An examiner should make due allowance for unavoidable deviations due to turbulence, ATC instructions, etc. An examiner should terminate a test or check only when it is clear that the applicant has not been able to demonstrate the required level of knowledge, skill or proficiency and that a full re-test will be necessary or for safety reasons. An examiner will use one of the following terms for assessment:
		(1) A 'PASS', provided that the applicant demonstrates the required level of knowledge, skill or proficiency and, where applicable, remains within the flight test tolerances for the licence or rating
		(o) A 'FAIL' provided that any of the following apply:
		(i) the flight test tolerances have been exceeded after the examiner has made due allowance for turbulence or ATC instructions
		(ii) the aim of the test or check is not completed
		(2) (iii) the aim of exercise is completed but at the expense of safe flight, violation of a rule or regulation, poor airmanship or rough handling
		(iv) an acceptable level of knowledge is not demonstrated
		(v) an acceptable level of flight management is not demonstrated
		(vi) the intervention of the examiner or safety pilot is required in the interest of safety
		(3) A 'PARTIAL PASS' in accordance with the criteria shown in the relevant skill test appendix of Part-FCL

>>>>> **STANDARDIZATION REFERENCE GUIDE - NOT TO BE REPORTED TO NAA** <<<<<

A1	APPENDIX 1 - STANDARDIZATION ARRANGEMENTS FOR EXAMINER - AMC2 FCL.1015 (cont.)	
(7)	Method and contents of the test or check	(p) Before undertaking a test or check, an examiner will verify that the aircraft or FSTD intended to be used is suitable and appropriately equipped for the test or check. Aircraft that fall under points (a), (b), (c), or (d) of Annex I to the Basic Regulation can be used provided that they are subject to an authorisation as per point ORA.ATO.135 or point DTO.GEN.240
		(q) A test or check flight will be conducted in accordance with the AFM and, if applicable, the AOM
		(r) A test or check flight will be conducted within the limitations contained in the operations manual of an ATO or the operator for which the applicant is flying, as applicable, or, if available, within the limitations placed by the DTO
		Contents:
		(1) A test or check is comprised of: • Oral examination on the ground (where applicable) • Pre-flight briefing • In-flight exercises • Post-flight debriefing
		(2) Oral examination on the ground should include: • Aircraft general knowledge and performance • Planning and operational procedures • Other relevant items or sections of the test or check.
		(3) Pre-flight briefing should include: • Test or check sequence • Power setting, speeds and approach minima, if applicable • Safety considerations.
		(4) In-flight exercises will include each relevant item or section of the test or check
		(5) Post-flight debriefing should include: • Assessment or evaluation of the applicant • Documentation of the test or check with the applicant's FI present, if possible
		(t) A test or check is intended to simulate a practical flight. Thus, an examiner may set practical scenarios for an applicant while ensuring that the applicant is not confused and air safety is not compromised
		(u) When manoeuvres are to be flown by sole reference to instruments, the examiner should ensure that a suitable method of screening is used to simulate IMC
		(v) An examiner should maintain a flight log and assessment record during the test or check for reference during the post or flight debriefing
		(w) An examiner should be flexible to the possibility of changes arising to preflight briefings due to ATC instructions, or other circumstances affecting the test or check
