A1	APPENDI	X 1 -	STANDARDIZATION ARRANGEMENTS FOR EXAMINER - AMC2 SFCL.430 (cont.)
		(p)	Before undertaking a test or check, an examiner will verify that the aircraft intended to be used is suitable and appropriately equipped for the test or check.
		(q)	A test or check flight will be conducted in accordance with the AFM and, if applicable, the AOM
		(r)	A test or check flight will be conducted within the limitations contained in the operations manual of an ATO or the operator for which the applicant is flying, as applicable, or, if available, within the limitations placed by the DTO
			Contents:
			A test or check is comprised of:
			 Oral examination on the ground (where applicable) Pre-flight briefing In-flight exercises Post-flight debriefing
			Oral examination on the ground should include:
		(s)	 Sailplane general knowledge and performance Planning and operational procedures Theoretical knowledge in the common subjects as per point SFCL.135(a)(1) in cases where the applicant receives a credit in accordance with point SFCL.140(a), based on a license the privileges of which were not exercised for more than 2 years; Other relevant items or sections of the test or check.
(7)	Method and contents of the test or		
	check		(4) In-flight exercises will include each relevant item or section of the test or check
			Post-flight debriefing should include: • Assessment or evaluation of the applicant • Documentation of the test or check with the applicant's FI present, if possible
		(t)	A test or check is intended to simulate a practical flight. Thus, an examiner may set practical scenarios for an applicant while ensuring that the applicant is not confused and air safety is not compromised
		(u)	When manoeuvres are to be flown by sole reference to instruments (proficiency check for sailplane cloud flying privileges), the examiner should ensure that a suitable method of screening is used to simulate flying in cloud
		(v)	An examiner should maintain a flight log and assessment record during the test or check for reference during the post or flight debriefing
		(w)	An examiner should be flexible with regard to the possibility of changes arising to pre-flight briefings due to ATC instructions, or other circumstances affecting the test or check.
		(x)	Where changes arise to a planned test or check, an examiner should be satisfied that the applicant understands and accepts the changes. Otherwise, the test or check flight should be terminated.
		(y)	Should an applicant choose not to continue a test or check for reasons considered inadequate by an examiner, the applicant will be assessed as having failed those items or sections not attempted. If the test or check is terminated for reasons considered adequate by the examiner, only these items or sections not completed will be tested during a subsequent test or check
		(z)	An examiner may terminate a test or check at any stage, if it is considered that the applicant's competency requires a complete re-test or re-check
